📍 Erlangen, Germany

## SUMMARY

Junior Software Developer. Passionate for learning, having new adventures in my life and creating new amazing things.

## EXPERIENCE

### Copa Club, Buenos Aires – CEO & Co-Founder

August 2012 – December 2017

I co-founded a company creating the framework for football lovers to compete in a local league with their friends.

- + Was responsible for a team of more than 10 people
- + Improved skills like communication, manager organization, customer experience and team-building

### Alentame, Buenos Aires – Front End Developer

January 2018 – August 2018

- + Development of WebApps (React JS / Angular JS, Next JS) and Mobile Apps (React Native) by interacting with Node JS web services (Restful API)
- + Participation in the platform developing and product release
- + Learning the basics of how to structure a web application from scratch by building a system for registering the company cash-flow.
- + Building my own library in vanilla-javascript for personal usage and further understanding of other libs
- + Usage of Scrum and Team Work

### Freelancer and Traveler – Front End Developer

September 2018 – July 2020

- + Kept working with Alentame remotely, launching customers websites
- + Development of small personal projects and tools with different technologies

## EDUCATION

### ITBA (Buenos Aires Institute of Technology) – IT Engineering

August 2016 – July 2017

I was introduced to the basics of programming and computer working. I learnt the interaction with the terminal shell, and an introduction to C language.

### Digital House (Programming Institute) – Full Stack Developer

July 2017 – December 2017

I learned the basics of WebApps. HTML, CSS, Javascript (w/React JS & Node JS), PHP (w/Laravel), MySQL, AGILE methodologies.

## SKILLS / TECHNOLOGIES USED

React JS/Redux, Node JS, Angular JS, GraphQL, Next JS, SASS, CSS-Modules, Google Apps Script, Express JS, PostgreSQL, React Native, Knex JS, Vercel Now, GH-Pages.
